PROFESSIONAL SUMMARY

Full Stack Developer, AI Systems Engineer, and **Co-Founder & CTO of OnCanvas** with **8+ months of experience** in enterprise application development. Expert in **Java Spring Boot, React.js, Node.js, and Python** across **AWS, Azure, and Google Cloud**. Hands-on with **Generative AI, Agentic AI, and prompt engineering**; proven at shipping scalable, secure, cloud-native products from concept to production.

EDUCATION

Government Engineering College Ajmer <i>B.Tech in Computer Science</i>	Oct 2022 – May 2026 CGPA: 7.5
--	---

EXPERIENCE

Co-Founder & CTO <i>OnCanvas (oncanvas.in) Aryans Art – Online</i>	Jan 2026 – Present <i>Bundi, Rajasthan</i>
--	---

- **Founded and lead engineering** for OnCanvas, a D2C e-commerce platform digitizing **Aryans Art** (precision CNC & laser-cut temples, interior decor) for national and international markets.
- **Spearheading full-stack platform build** with **Next.js, Node.js, PostgreSQL** – product catalog, cart, checkout, and payment integration – targeting B2C and B2B buyers.
- **Launched brand identity, SEO strategy, and cloud infrastructure** on **AWS/Vercel**, transforming a traditional art business into a modern online-first retail brand.

Software Developer Associate <i>Achintya Softech achintyasoftech.com</i>	Nov 2025 – Present <i>Remote</i>
--	-------------------------------------

- **Shipped** enterprise full-stack features using **Java Spring Boot, React.js, and Node.js** in agile sprints; owned development from requirements to production release.
- **Engineered** scalable **REST APIs and GraphQL** services with **microservices and event-driven patterns** (Kafka); tuned **PostgreSQL/MongoDB** schemas for measurable throughput gains.
- **Provisioned** multi-cloud infrastructure (**AWS, Azure, Google Cloud**) using **Docker, Kubernetes, Terraform, and CI/CD pipelines**; enforced **JWT, OAuth 2.0, IAM, and encryption** security standards.
- **Embedded Generative AI and Agentic AI** capabilities via **Azure OpenAI and Claude AI**, automating enterprise workflows; leveraged **prompt engineering** to maximize model accuracy and business value.

ML Research Intern – Cybersecurity <i>Indian Institute of Technology Gandhinagar</i>	Jun 2025 – Oct 2025 <i>Gandhinagar, Gujarat</i>
--	--

- **Developed** federated learning models for distributed IoT intrusion detection, boosting **accuracy by 14%** with privacy-preserving edge deployment.
- **Applied** Elastic Weight Consolidation (EWC) via **TensorFlow/PyTorch**, cutting catastrophic forgetting by **30%**; evaluated **DNN/CNN** models on **1M+ packets** reaching **0.94 F1-score**.
- **Automated** ML evaluation pipelines using **Agentic AI frameworks and prompt engineering**, aligning AI output with security objectives and reducing manual effort by **40%**.

Full Stack Developer Intern <i>KVON Tech / Ditanbiz India Pvt. Ltd.</i>	Nov 2024 – May 2025 <i>Jaipur / Remote</i>
---	---

- **Launched** cloud-native **Next.js** portals on **AWS/Vercel** with SSR, lifting SEO rankings by **35%**; built **Node.js** APIs handling **5,000+ daily requests** at 99.9% uptime with **Redis** cutting latency by **50%**.
- **Crafted 30+ React.js components** (100% WCAG compliant) from Figma; refined **MongoDB/PostgreSQL** schemas for **25% faster queries** and used **Redux Toolkit** to eliminate prop-drilling.

PROJECTS

IITGN Career Development Portal	<i>TypeScript, React.js, Node.js, PostgreSQL, AWS</i>	Live
--	---	----------------------

- Production portal for **500+ IIT Gandhinagar users** – **OAuth 2.0** auth, scalable REST APIs, AWS deployment; achieved **95+ Lighthouse score** with SSR and lazy loading.

Stealth Health – AI Analytics Dashboard	<i>TypeScript, React.js, WebSockets, Azure OpenAI</i>	Live
--	---	----------------------

- Real-time dashboard visualizing **10+ health metrics** at **60fps** via **WebSocket pipelines**; integrated **Azure OpenAI** for AI-driven insights across **1,000+ data points**.

- End-to-end enterprise site – design, **multi-cloud deployment (Vercel/AWS)**, and **SEO optimization** – independently shipped for a biotech startup.

TECHNICAL SKILLS

Languages	: Java, JavaScript (ES6+), TypeScript, Python, C++, SQL, HTML/CSS
Backend	: Java Spring Boot , Node.js, Express.js, REST APIs, GraphQL, WebSockets, Kafka, JWT, OAuth 2.0
Frontend	: React.js , Next.js, Angular, Redux Toolkit, Tailwind CSS, Three.js, GSAP, Framer Motion
Databases	: PostgreSQL, MongoDB, MySQL, Redis, Prisma, Mongoose
Cloud & DevOps	: AWS, Azure, Google Cloud , Docker, Kubernetes, CI/CD, Terraform, Bicep, Vercel, Git
AI / ML	: TensorFlow, PyTorch, Generative AI, Agentic AI, Prompt Engineering , Azure OpenAI, Claude AI, Federated Learning
Tools	: Postman, Figma, Webpack, npm, VS Code, IaC (Terraform/Bicep), Puppeteer, Playwright , Browser Automation
